SETTING  
– IMPRESSIVE ARCHITECTURE

Hotel Koldingfjord is located in the heart of the most beautiful countryside, right next to Kolding Fjord and surrounded by 25 ha of protected woodland. The impressive buildings, which were originally built as a sanatorium, have been carefully restored – classic architecture meets timeless Danish furniture design.

Today the architecture, the setting and, in particular, the atmosphere create the perfect backdrop for everything from charming, intimate moments to large international meetings.

## WITH AMBIANCE

The rooms, which are divided between the main building, the two mansions “Dagmar” and “Christian”, and the “Skovly” building, are, naturally, fitted with all modern conveniences.

All 132 rooms have their own ambiance and charm. The trait they share is timeless

and the special atmosphere created by the light, the air and the magnificent architecture.

At Hotel Koldingfjord, there is plenty of space – and every opportunity for quiet reflection...

## FOR THE BIG DECISIONS

Our undisturbed setting is perfect for intense negotiations and big decisions.

Plenty of light and a full range of modern technical equipment set the scene for your event.

But the scenery is only part of the story. We are mentors, specialists in meetings, and will be happy to provide inspiration, sparring and good advice for how best to organize conferences and meetings.

## IS ART

It is as simple as that. Our cuisine is inspired by the beautiful countryside that surrounds us. With attention to quality – and respect for the environment.

We serve everything from individual and personal choices in our à la carte restaurant to light meals in Café Louise

and sumptuous meals for large corporate events in our delightful banqueting rooms.

We invite you to host your next party in our beautiful banqueting rooms with panoramic views of the fjord. The combination of first-class cuisine and a magnificent view makes for a perfect experience.
